SEQUENTIAL GOALS

First it cleans and strengthens your aura and then it fills the space created with life force energy. After that it strengthens your connections to the Divine, Mother Earth, and your personal heart path. Then it directs 4 element energy to positive goals and any intentions you desire.

Use twice daily, before making decisions, meditating, healing, after unbalancing events, strong emotions, or stress. With clients before, during, and after sessions.

The Aura Cleanser adjusts its energies for different people and emotional situations.
